## ABOUT ME

I am a seasoned designer residing in Columbus, Ohio. I have had the opportunity to work across a variety of industries in Chicago, Columbus & San Francisco. From an early age I knew that I wanted to be involved in a creative workspace.

I was heavily influenced by my city & the street art found on trains, buildings and billboards. That inspiration finds its way into my unique style, design vision and passion for pixels & point sizes. If you want to work with someone who is energetic, responsible & most of all positive, contact me.
